

Folded Ribbon Pinecone Ornaments

Materials Needed For One Pinecone Ornaments:

- 1 Styrofoam Egg (3 ½" long)
- 3 Yds. of 7/8" Christmas Ribbon
- Straight Pins
- Ribbon or Cord for a hanger
- Ribbon, Beads, Holly, etc. to decorate the top

Step 1: Cut 3 yards of 7/8" ribbon into 2" pieces.

Step 2: Fold edges of ribbon in – to form a point in the center.
Place folded side down about 1" from the tip of the egg.
Pin down the two bottom corners. Place the next piece on the opposite side. Reposition so the tips touch and the bottom edges are level. Place pieces of ribbon on the two opposite sides. Let the tips touch. (They should extend out from the egg.)

Step 3: Place next piece of ribbon about ¼ to ½" down and on top of each existing piece of ribbon. Pin bottom corners down.

Step 4: Begin to alternate the pieces of ribbon instead of just overlaying as before. In other words, fill in the gaps. Go as far down the egg as possible with the folded ribbon pieces.

Step 5: Pin or glue a piece of ribbon or cord for a hanger. Decorate the top with ribbon, beads, holly, etc.
